WHAT'S ON

**PREVENT FRAUD, AND DON'T BE A
VICTIM OF SCAMS.**

**PEOPLE MUST BE AWARE AND BE
VIGILANT.**

- Don't give out personal information on the phone, through the mail or over the internet unless you have initiated the contact or know whom you are dealing with.
- Verify if the representative posing on behalf of the company does indeed work at the company
- Criminals sometimes uses the names of banks and their officials to give credibility to their "referrals" or support other aspects of their "to good-to-be-true" business proposals
- The offer may even be backed with impressive-looking documentation and letterheads, which may even be genuine, that have been stolen or reproduced.
- Once you are hooked, you will be asked to

deposit money to help the transaction take place.

- If you make a deposit, you will never see the money again.
- Under no circumstances should you attempt to reply, either by email, phone or post.
- We urge you not to become another statistic in these scams.

Calculators for Kwano.

If you've got a calculator lying around the house not being used please donate it to the Kwano Bicycle Academy. So many students doing Maths don't have calculators. It will be of real benefit. Please can you take them to the bike shop on Piesang Valley Rd, and I will take them to the maths classes next year! Thanks in anticipation of exponential gift giving! Susan Donald - 076 873 5970

First Responders

On Saturday 9 Dec, approximately 15h28, First Responders were alerted to a gentleman that had fallen and sustained a possible broken ankle on Robberg End boardwalk. First Responder volunteers responded to the scene in their private vehicles. First responder Logan was first on scene 15h29 followed in quick succession by Marc with medical kit. The casualty was found conscious, but in a lot of pain, his ankle was broken. An ankle splint was put into place. Logan & Marc carried the person to a private vehicle for transportation to Knysna hospital, as the Ambulance Service was busy at another incident. We wish him a speedy recovery.

First Responders is a community-based volunteer group who provides their assistance to professionals in medical services. First Responder Volunteers fund their own fuel, phone, insurance, etc. We rely on donations from the public to fund our equipment and consumables.

Make sure that you have the professional Emergency Services and Local ambulance services numbers on hand and call them **FIRST!** In the event of an emergency. First Responder Call center number is (082) 251-8134 First Responder banking details are: BMERC, Standard Bank, Plett, Branch 050714, Acc no 251989976.

Carols - fundraiser for Hospice at Barringtons - 15 December

Join us for a truly special pre-Christmas, "Carols by Candlelight" Hospice Plett fundraiser celebration out on the lawn at Barrington's. We're taking the time to give thanks, remember and celebrate before the real buzz of season descends. Sing along and sing your heart out to all your favourite favourite Christmas carols, led by the Seaside Choristers under the musical direction of Jill Kirkland and special guest, Mike Bhayibhile. Entrance is free, however,

PLEASE NOTE THIS IS A FUNDRAISER in support of the amazing work Plett Hospice do and all guests will be kindly asked to make a contribution towards the

Plett Aid Foundation on the night. Candles will be available to purchase. Bring your own blankets and please note chairs are available but will be solely reserved for the elderly and disabled.

Arrive early, secure your spot on the lawn and then browse our very first "Shari D Christmas Night Market" from 4pm, before the concert begins. Barrington's full a la carte menu available. Please note, we do not take reservations during season and operate on a first come, first serve basis. Looking forward to welcoming you with this very special start to the 2023 summer season!

Strandloper Project **Marine Wildlife Strandings in the** **Garden Route.**

If, while enjoying your time on the beach and shoreline, you encounter a stranded species of marine wildlife, please contact your local Marine Stranding organization.

WHAT TO DO IF YOU FIND A TURTLE.

- 1) Do not return it to the ocean. It has stranded as it is either weak, ill, tired or has ingested plastic.
- 2) Do not place it in a container of water. Turtles are air breathing and can drown if weak and tired.
- 3) Keep it in a dry, ventilated and room temperature box, preferably placing the turtle on a towel.
- 4) Contact the turtle rescue number or the local marine stranding organization.
- 5) Get a location pin

WHAT TO DO IF YOU FIND A LIVE SEAL.

- 1) Do not try and chase it into the water - it

is either tired, undernourished or weak and wants to rest.

- 2) Create a safe zone around it and prevent dogs and crowds from approaching it.
- 3) Call your local marine stranding organization.
- 4) Take a location pin to share with the rescuers.

WHAT TO DO IF YOU FIND A PENGUIN

- 1) Do not try and chase it into the water - it is either tired, undernourished or weak and wants to rest.
- 2) Create a safe zone around it and prevent dogs and crowds from approaching it.
- 3) Call your local marine stranding organization.
- 4) Take a location pin to share with the rescuers.
- 5) After you have spoken to a marine animal rescuer, and they request you to collect the Penguin, follow their instructions on how to handle it and where to take it.

Please be aware that they have extremely sharp beaks and need to be handled with care and cautiously.

WHAT TO DO IF YOU FIND A DOLPHIN

- 1) Check for any obvious injuries.
- 2) Report to the local marine stranding organization and provide a detailed report of condition and location.
- 3) Unless advised by the stranding organization, do not attempt to return the dolphin to the ocean. Keep it cool by placing wet towels over it and wetting the towels about every 10 minutes.
- 4) Reduce any stress from dogs and crowds.

A word fitly spoken is like APPLES OF GOLD in a setting of silver - Proverbs 25v11

As we come to the end of 2023 and take time to reflect on the past year, there are good and not so good memories. The apostle, Saint Paul, in his first letter to the church in Thessalonica chapter 1 verse 3 shares with them some of his memories of them: "We continually remember before our God and Father your work produced by faith, your labour prompted by love and your endurance inspired by hope in our Lord Jesus Christ".

Paul mentions three fond memories about them -the first one being: Your work produced by faith. What is this work? It is important to notice that it is not plural works, but work that is only done once. From the context and especially verse 9 we see that this work or task that Paul refers to is a turning to God or what the Bible calls repentance. It is a work initiated by God when He calls us to make Jesus Christ Lord of our life and it is completed when we believe and exercise saving faith as Jesus confirms in John 6v29: "Jesus answered and said to them, "This is the work of God, that you believe in Him whom He has sent." Many people have a superficial belief in Christ or an intellectual acknowledgement of Him, but that is not work produced by faith because James tells us in his epistle chapter 2 verse 9: "the demons also believe and shudder". The belief that the Bible refers to is a faith that is life-changing and involves surrendering our hearts, mind and soul to the Lord - no longer is my life centred around my will, but His will, as the Lord's Prayer says: "Thy will be done". It has been said that faith is blind or a leap into the dark. I beg to differ -the work produced by faith is a leap into the light and love of Christ! Next week we will consider what is meant by labour of love.

God Bless
Graeme Greenwood

Discover Eden

Every year in the first week of December for over a decade, a team of researchers heads into the Plettenberg Bay Kelp Gull breeding colony to ring chicks for long term monitoring.

This morning the team consisted of rangers from CapeNature, researchers from the Nature's Valley Trust, Birdlife Plettenberg Bay, Dunefields, the Plett Animal Stranding Network, ringers from Sedgefield and ourselves. The rings enable us to see where "our" Plett gulls go in their lifetime (we have had birds reported all the way from Cape Town to Durban) and how long they live (over 20 years!).

We carefully enter the seabird breeding colonies, which also host numbers of Sacred Ibis, Little Egret, African Spoonbill, African Oystercatcher, White-fronted Plover, Egyptian Geese, Water Thick-knee and of course Kelp Gulls, and avoid disturbing nests as much as possible, concentrating on carefully adding rings to the leg of each Kelp Gull chick we can easily access.

Strangely, the numbers of chicks to ring were way down this year, and the team on Lookout Beach only managed to ring 26 chicks while the team on the Keurbooms side of the river ringed 10. In comparison we normally ring between 150 and 250 chicks around this date!

Recent disturbances in the colonies (at least three instances of groups of children or adults going in chasing birds and smashing eggs), possible higher predation rates, late initiation of nesting or a combination of all three may be reasons for the reduced numbers.

The team will head out in a few weeks time to see if more chicks are old enough to get their bling. A big thanks to Chanel Gemae Visser for arranging the day, Eben, Lauren and the NVT team, Zanri Strydom, Tiaan Strydom, Kelly Brown, Minke Tolsma, TJ Witteveen, Victor and Kate for assisting us on the day.

Keep Plett Clean

Let us introduce Joseph and Josephy. Come sunshine or rain you will see these two gentleman doing their daily jobs willingly and dedicated.

You have more than likely driven past their motorbikes with them sporting their KPC bibs and the pickers ready for the daily clean.

Thank you to community members for sponsoring some Christmas goodies for them. **THANK YOU!**

They are a very important part of the team and we just want to express our sincere gratitude to them.

Did you know?

The lines under a cheetah's eyes are often referred to as "tear marks" or "tear streaks." These distinctive black markings run from the inner corners of the eyes down to the sides of the nose and continue down the face. The tear marks are a characteristic feature of cheetahs and are unique to this big cat species.

The function of the tear marks is not entirely clear, but there are several proposed explanations:

Sun Glare Reduction: One commonly suggested purpose is that the tear marks help reduce the glare of the sun and improve the cheetah's focus on prey during daytime hunts.

Communication: Tear marks may also play a role in communication, helping cheetahs convey visual signals to other individuals, particularly during social interactions.

Thermoregulation: Another theory is that the tear marks assist in cooling the cheetah's body by dissipating excess heat from around the eyes, similar to the function of eye black used by athletes.

While these are theories, the exact reason for the tear marks remains a subject of study and discussion among researchers and wildlife enthusiasts. Regardless of their specific function, these distinctive facial markings contribute to the cheetah's unique appearance and are easily recognizable in the wild.
