Strandloper Project

Marine Wildlife Strandings in the Garden Route.

If, while enjoying your time on the beach and shoreline, you encounter a stranded species of marine wildlife, please contact your local Marine Stranding organization.

WHAT TO DO IF YOU FIND A TURTLE.

- 1) Do not return it to the ocean. It has stranded as it is either weak, ill, tired or has ingested plastic.
- 2) Do not place it in a container of water. Turtles are air breathing and can drown if weak and tired.
- 3) Keep it in a dry, ventilated and room temperature box, preferably placing the turtle on a towel.
- 4) Contact the turtle rescue number or the local marine stranding organization.
- 5) Get a location pin

WHAT TO DO IF YOU FIND A LIVE SEAL.

- 1) Do not try and chase it into the water - it is either tired, undernourished or weak and wants to rest.
- 2) Create a safe zone around it and prevent dogs and crowds from approaching it.
- 3) Call your local marine stranding organization.
- 4) Take a location pin to share with the rescuers.

WHAT TO DO IF YOU FIND A PENGUIN

- 1) Do not try and chase it into the water - it is either tired, undernourished or weak and wants to rest.
- 2) Create a safe zone around it and prevent dogs and crowds from approaching it.
- 3) Call your local marine stranding organization.
- 4) Take a location pin to share with the rescuers.
- 5) After you have spoken to a marine animal rescuer, and they request you to collect the Penguin, follow their instructions on how to handle it and where to take it. Please be aware that they have extremely sharp beaks and need to be handled with care and cautiously.

WHAT TO DO IF YOU FIND A DOLPHIN

- 1) Check for any obvious injuries.
- 2) Report to the local marine stranding organization and provide a detailed report of condition and location.
- 3) Unless advised by the stranding organization, do not attempt to return the dolphin to the ocean. Keep it cool by placing wet towels over it and wetting the towels about every 10 minutes.
- 4) Reduce any stress from dogs and crowds.

Your subconscious mind doesn't know anyone but you.

It doesn't recognize separation, it only knows your experience. It doesn't see you and them, it sees everything as you. That means every thought, word and judgment you project outward doesn't actually leave you. When you speak negatively about someone, your subconscious believes you're talking about yourself. Everything you say about others imprints into your own cells, shaping your energy and life. It doesn't go outward, it stays within, slowly poisoning your own reality. Be mindful of your thoughts and words, they create your world. Ready to shift your energy and transform your reality?

On Thursday the 3rd of April at approximately 18h28 First Responders were alerted to a young German couple who had made contact using an iPhone emergency call reporting that they were lost in the Forest near Groot Rivier in Natures valley. The couple was requesting a rescue party. SANParks were alerted, SAPS were

informed, and Medlife ambulance services remained on standby by. First Responder volunteers began working on a search and rescue plan. First Responder volunteers managed to establish the couples' location northwest of De Vaselot campgrounds in Natures valley using a WhatsApp location pin. The couple who had been following a trail on a well-known hiking app had unbeknown to them, turned off onto a closed trail, and became lost in the dense indigenous forest. Phone contact with the couple was possible, and the couple were asked to remain where they were and wait for rescue. By 19h30 First Responder volunteers had established a small rescue party consisting of SANParks rangers and First Responder volunteers and were making way to a rendezvous point at the bridge at Groot Rivier. At 20h05 the Rescue party began hiking into the dense forest, at times managing to follow old pathways and a winding river through the mountainous terrain, while following various GPS devices and a topographical map. At 21:50 the couple was located and found to be in good spirits although hungry. The couple was elated to meet their rescuers and very glad that they were not going to spend the night in the darkness of the forest. After a brief round of introductions some water and food the rescue party along with the German couple began making way back in the direction of the rendezvous point using a bread crumb trail laid by a GPS on the way in. At 23h22 the party had made it back to the vehicles and safety. The couple who had left their car at the same point earlier in the day (midday) were very happy to find safety and security and no longer required any further assistance making their way back to their holiday Accommodation. A Huge thank you to the dedicated staff from

The VMCM- Voluntary Medical male circumcision program is a program that works hand in hand with the department of health. We have these programs once a month and we have professionals that do the circumcisions. Additional information is also provided on the day or at your nearest health facilities and you can also get it from the mobilisers. We cut from the age of 10 yrs and older. It is utmost important to remove the foreskin to prevent getting any infections of any kind and it's a very safe way to do it. For any information or a booking, please so contact me on Facebook/ Whatsapp (0735135119). Kind regards
