Knysna Banana Frog.

Frogs are fascinating, often cute or comical creatures... and they are extremely important bioindicators: they have permeable skins and easily absorb toxic chemicals, making them quite sensitive to environmental changes. The first frogs appeared on the Earth almost 200 million years ago! And since the 1950's (the beginning of the plastic and throwaway culture) there has been a sharp decline in numbers, with more than one third of frog species on the verge of extinction! Over 120 frog species have become extinct since the 1980's. Development (habitat loss) and environmental degradation are the two main causes. A small frog of great importance: *Arixalus Knysna* is the Knysna leaf-folding frog, also known as the Knysna banana frog. A beautiful little frog with large alert-looking eyes and toe pads for climbing that make it look like a mini tree frog. It is nocturnal, hunting invertebrates like mosquitos and other insects in low vegetation close to water. During the day it rests huddled in the mud at the bases of plants, and it's colors fade somewhat... but at night it shines an amazing golden color! This species has a very short breeding season in the summer, so the mating calls can only be heard for about one month in a year. The call is a soft trill that lasts for one or two seconds and sounds very insect-like. The sticky eggs are deposited in leaves that are folded by the frogs to protect them, and hanging over water so that when the tadpoles hatch they fall effortlessly into the right place to begin their life journey. The reason that this is such an important

species in terms of being a bioindicator, and so demonstrating to us the uniqueness of micro-habitats that only function when connected to larger ecosystems, is because of the very specific conditions that it requires for its existence: This beautiful little frog needs clean water pools around 500mm deep, and specific types of vegetation for breeding. If we are not careful, we might lose this special little frog forever: you can't fix extinction, and every time we remove another delicate strand from the web of life the whole web becomes weaker.

Plett Shark Spotters

It's that time of year again when we start
keeping our eyes peeled ☺ for the arrival
of white sharks 🦈 in Plettenberg Bay! In
2024, our first sighting was in May, with
activity peaking around September ☑.
Robberg remains a truly special place 📍,
one of the few spots where you can witness
these apex predators cruising just metres
from shore, right alongside the mountain.
Recently, four white sharks were tagged
along the east coast and eight in Mossel
Bay 🌊. Shark Spotters are now operating
daily from 07:00 to 18:00 at five beaches:
Lookout Beach, The Wedge, Central Beach,
Robberg 1, and The Wreck. Lifeguards will
raise the white shark flag 🚩 if a shark has
been seen within the past hour. 🦈

Riley Clark: A Plett Teen with a Big Tennis Dream

If you've been anywhere near the courts at Plett Country Club, you've probably heard Riley Clark before you've seen him. At 17, Riley brings a mix of talent, energy, and unmistakable enthusiasm to every match he plays — the kind of presence that makes tennis fun to watch and impossible to ignore. Riley first picked up a racket at six years old, and from that moment, tennis became part of who he is. By ten, he had joined **The Olsen Tennis Academy**, where he found the coaching and competitive environment that helped turn his passion into real progress. Over the years, he's built a reputation not just for his ability, but for the spirit he brings to the court — loud, lively, and always fully committed. Here in Plett, Riley is a regular at the Country Club courts. He thrives on the social side of the sport just as much as the competitive side, and he especially loves being invited to the annual

Wimbledon Mixed Doubles Tournament — an event that suits his personality perfectly: fun, competitive, and full of

community. This year, Riley reached a milestone that reflects years of hard work and dedication: **he has been selected for the South African U19 Schools Tennis Team.** It's an incredible achievement for a young player from our small coastal town, and it opens the door to an exciting opportunity — travelling to the **United Kingdom** to compete internationally as part of the SA team. The experience will expose him to new opponents, new conditions, and a level of tennis that will help him grow even further. As with most international sporting tours, the costs are significant. Riley's family is working hard to make the trip possible, and the community's support — whether

through sponsorship, donations, or simply spreading the word — will help him take this important step in his tennis journey. Riley is a vibrant, hardworking, and proudly Plett teenager who gives everything he has to the sport he loves. With the backing of the community that has watched him grow, he'll head to the UK not just as a member of the SA Schools Team, but as a spirited ambassador for the town that shaped him.
