I know you are really anxious for our child to do well, but please remember amongst the students who will be sitting for the exams.. There's an artist who doesn't need to understand math.

There is an entrepreneur, who doesn't care about history or English literature. There is a musician, whose chemistry marks won't matter. There is the athlete physical fitness is more important than physics. If your child gets top marks, that's great! BUT... if he or she doesn't PLEASE don't take away their self confidence and dignity from them. Tell them its ok, it's just an exam, they are cut out for much bigger things in life... tell them no matter what they score, you love them and will not judge them.

Pulsed Electromagnetic Field Therapy

Now available at Kwendalo

Pulsed Electromagnetic Field Therapy (PEMF) is a non-invasive technique that uses low electromagnetic frequencies to amplify your natural energy by delivering targeted electromagnetic energy to a specific area of the body with the aim of enhancing cell function and promoting healing. It is used therapeutically to help cells regain the energy they require for optimal health and vitality. PEMF has proven clinical benefits for various conditions including: pain relief and reduced inflammation, enhanced muscle function, accelerated bone healing, improved blood circulation and promotes heart function. Additionally, it is known to reduce the effects of stress and anxiety, improve mental focus and cognitive functions, improve sleep quality and balance immune functions.

A word fitly spoken is like APPLES OF GOLD in a setting of silver - Proverbs 25v11

In the book of Galatians chapter 6 verse 2 we read: "Carry each other's burdens and in this way you will fulfil the law of Christ. If anyone thinks they are something when they are not, they deceive themselves. Each one should test their own actions. Then they can take pride in themselves alone, without comparing themselves to someone else, for each one should carry their own load". This seems like a contradiction - on the one hand we are told to carry each other's burden, but then we are told they must carry their own load. The explanation is that Burden and Load are different. A burden is some hardship or distress that comes from outside and is common to all humanity whether they are good or bad, believers or unbelievers. A load on the other hand is something Christians have voluntarily decided to carry to further the Kingdom of God and glorify Jesus Christ.

This week I want to focus on what it means to carry each other's burdens. These burdens could be grief caused by the death of loved ones, ill health, relationship turmoil, loneliness or financial loss. There is always a temptation to leave this task to paid counsellors, social-workers and pastors, but we are all called to walk alongside, comfort, encourage, pray and share relevant Scripture with those who have hurt and pain however time consuming, emotionally draining and inconvenient this might be. If we don't have a desire to carry each other's burdens, our faith is a sham because evidence of a living relationship with Jesus Christ, is how much we love and care for those who are being crushed by circumstances. If we are bearing one another's burdens, we will be fulfilling the law of Christ which is to love one another as I have loved you.

Next week we will consider what it means

to carry our own load.
God Bless
Graeme Greenwood

Natures Valley Trust

20/21/23

Update on shorebird monitoring

October was equally saddening as it was rewarding as our shorebirds dealt with the aftermath of the harsh storms that raked through the Western Cape. Robberg, Keurboomstrand and Nature's Valley Beaches have all experienced a great reduction in ideal nesting habitat (i.e., dune habitat) as the high swell carved out large proportions of dune. A number of vulnerable White-fronted plover (WFPL) nests were swallowed up in the process. The dune system on Lookout Beach remained intact, but flooding of the low-lying areas still wiped out a number of active nests.

However, these birds have proven their resilience once again. Across all our monitored beaches: Robberg, Lookout, Keurbooms and Nature's Valley, there are currently 13 active WFPL nests, 4 of which have produced 6 beautifully fluffy chicks: 2 on Robberg Beach, 1 on Lookout Beach,

IN SUPPORT OF CONSERVATION

and 3 on Keurbooms Beach. Nature's Valley has to play some catch-up, but there is one nest that is looking promising with two excellent parents!

Because there is such little space left for these characteristic birds to breed, let's help them recover from the environmental knock in September by steering clear of the sign-posted and sectioned-off areas of the beach and dunes. This prevents the parents from being scared off their eggs which need to be shaded in the hot summer sun. That's what plover parenting is all about – keeping those eggs at the right temperature all the time. When they finally hatch, it's all about keeping them safe from predators while teaching them survival strategies and feeding habits.

As a final message, we strongly urge residents and visitors to adhere to dog regulations and restrictions on our beaches. The local teams and conservation organisations have worked hard to lift the conservation status and quality of these beaches to the point of international recognition and prestigious awards. Please be an example to our yearly visitors this holiday season to ensure the legacy shines in years to come.

WHAT'S ON

PREVENT FRAUD, AND DON'T BE A VICTIM OF SCAMS.

PEOPLE MUST BE AWARE AND BE VIGILANT.

- Don't give out personal information on the phone, through the mail or over the internet unless you have initiated the contact or know whom you are dealing with.
- Verify if the representative posing on behalf of the company does indeed work at the company
- Criminals sometimes uses the names of banks and their officials to give credibility to their "referrals" or support other aspects of their "to good-to be-true" business proposals
- The offer may even be backed with impressive-looking documentation and letterheads, which may even be genuine, that have been stolen or reproduced.
- Once you are hooked, you will be asked to

deposit money to help the transaction take place.

- If you make a deposit, you will never see the money again.
- Under no circumstances should you attempt to reply, either by email, phone or post.
- We urge you not to become another statistic in these scams.

A concerned resident contacted the PBCPA Hotline with information on a person dealing with drugs. The control room operator gathered detailed specifics & target information. Who then compiled and structured information in such a manner that will enable officers to execute the operation on point. The information folder was handed over to the SAPS crime prevention unit for action.

Last night, the 23rd of November SAPS CPU officers Sgt. Lumko, Const. Nonganga & Const. Tsibani executed their operation successfully, the suspect in the procession of drugs was arrested, and the drugs were confiscated.

Hats off to SAPS CPU on a job well done. We are particularly proud of the control room operator for the professional way he gathered the information and compiled the report.

Working together with all emergency and security partners towards safer and crime free greater Bitou.
