Probus

– What is it?

The Plett Probus Club is a local association of retired or semi-retired professional or business people who have similar levels of interest, are of good character and are respected in the community. The objectives of Probus include: To stimulate thought, interest and participation in a variety of activities and to create opportunity to make new friends at a stage in life when folk have both the need and the time. As a Probian, you will find membership interesting and satisfying, but what is more important, you will meet and enjoy the fellowship of a group of similarly minded folk, who, like yourself, are expanding their interest and extending their friendships. We have regular meetings either for an informal breakfast or a luncheon during which a presentation on popular current day topics of interest is given at venues in and around Plett. Aircraft incident at Plet Airport.

Bitou Municipality confirms that a small aircraft has run off the runway at Plettenberg Bay Airport.

Fortunately, the pilot was not injured in the incident. Bitou Municipality's Fire and Rescue Services, together with other emergency response stakeholders, are currently on the scene and attending to the incident. According to the pilot, the incident may have been caused by a possible mechanical fault. This has not yet been confirmed, and the relevant authorities will conduct the necessary investigation to establish the cause of the incident. The Airport Manager, Ms Barnes, has informed the South African Civil Aviation Authority (SACAA) of the incident, and the appropriate aviation procedures are being followed. Members of the public are urged to avoid the area and allow emergency and aviation officials to conduct their work safely. Further information will be provided as it becomes available.

Responding to Abuse with Care and Expertise

SHIELD – Description

SHIELD is a GBV Response and Safe-guarding Consultancy focused on providing practical, survivor-centred support and clear response pathways for individuals, organisations and communities affected by Gender-Based Violence.

Our work centres on creating safer responses through compassionate guidance, ethical support practices and strong referral networks. SHIELD assists individuals by offering confidential support, helping them understand their options, and connecting them to trusted services such as counselling, legal assistance, medical care and social support.

In addition to direct support, SHIELD provides awareness talks, educational workshops and safeguarding guidance to communities, schools, organisations and businesses. These sessions aim to increase understanding of GBV, promote prevention, and empower people with the knowledge to respond safely and responsibly.

Our mission is to improve how GBV is responded to — making support accessible, coordinated, trauma-informed and community-focused.

Thank you

A huge thank you to Lisa from **Plett Watch** who arranged for **Eugene** from **ADT** to come and check our property at 22H00 after being told by another security company that they couldn't come out to help because we aren't clients of theirs, despite us having us being clients at another property. Eugene was so good, walked through the property, checked all the rooms and even checked the garden to make sure there was no one on the property. Then confirmed that we were happy before he left. What amazing service.

Thank you

First Responders

Emergency Incident

Report 28th September 2026

An emergency alert received of an unresponsive male at Schoongezicht 18h51. First Responder Keagan arrived on scene 18h54 and reported that patient's vitals are poor and immediately started with CPR. Various First Responders arrived in quick succession assisting with CPR. After an urgent appeal for a Doctor, Dr Herman Nel arrived on scene shortly thereafter. Medlife arrived on scene 19h08. CPR continued trying to stabilize patient for transport. 20h00 patient was loaded to transfer to Medi Clinic. Dr. Nel accompanied the patient. Medi Clinic confirmed they ready to receive patient 20h02. Last Responder stood down at Medi Clinic 20h33. Patient was still in ER with the Doctors. We have since received the sad news that the patient has passed, our deepest condolences to his family and friends, R.I.P. The incredible team effort to stabilize this man for over an hour is just mind-blowing, their efforts prolonged his life for a while longer. In the words of Dr Matt, "The level of closure it gives families to know how much was done for their family member even with an unfortunate outcome, is unquantifiable. We are really fortunate to have a whole network of people and teams to help those who need help the most on one of the worst days of their lives". First Responders works closely with Metro
