The Plett Probus Club is a local association of retired or semi-retired professional or business people who have similar levels of interest, are of good character and are respected in the community. The objectives of Probus include: To stimulate thought, interest and participation in a variety of activities and to create opportunity to make new friends at a stage in life when folk have both the need and the time. As a Probian, you will find membership interesting and satisfying, but what is more important, you will meet and enjoy the fellowship of a group of similarly minded folk, who, like yourself, are expanding their interest and extending their friendships. We have regular meetings either for an informal breakfast or a luncheon during which a presentation on popular current day topics of interest is given at venues in and around Plett. What a fantastic way to start the July Winter holidays! The Born in Africa team treated a group of its primary school learners from Kranshoek to an informative outing at Lawnwood Snake Sanctuary located in The Craggs. We were welcomed by their friendly guides who took such care in providing our learners with a wonderfully curated tour of the snake sanctuary. A number of our kids were brave enough to pet some of the snakes. We then enjoyed the play park at Moss & Maple with Jacques and his team treating us to yummy Boerie rolls and cooldrink. With tummies full and lots of interesting information learned about protecting our reptiles, our fulfilled group of learners commenced their well deserved 3 week school holidays!

PLETTENBERG BAY CRIME PREVENTION ASSOCIATION

The PBCPA respond and assist whenever or wherever emergency assistance is Needed. Earlier today (30 June 2026) a request was received from a desperate dog owner in Keurbooms who's Rhodesian Ridgeback on a long leash chased after something into the dense bush area with his leash on, the owner could not unclip the leash on time. Her dog did not return, she could hear him whine in the bushes. Notwithstanding all her efforts she could not find her dog & requested a drone search. Waldo Olivier, drone pilot immediately responded. The drone search was done meticulously, the dog could not be pinpointed in the dense bush area, however the dog's desperate whine/barking were heard. Waldo stopped the drone search, to try to get through the bushes where he could hear the dog desperate barking, his efforts was to no avail. Waldo requested assistance and a chainsaw. Courtney arrived on scene and decided to took on the bushes to get to the whining dog. With her slender 5ft something built she crawled through the bushes, unhook the dog and brought him to safety. Humongous applause to everyone involved in the rescue, a special word of gratitude to Courtney for her selfless act of pure dogLove. Great job all round

## DON'T PICKUP TORTOISES - TAKING THEM HOME IS ILLEGAL -

We are urging the public to leave tortoises where they are found and not take them home. WCIN are very concerned about the increasing number of reports received via our hotline from members of the public who have witnessed individuals stopping along roadsides to remove tortoises and load them into vehicles. **PLEASE**, a tortoise crossing a road is not lost, it is simply crossing the road that wasn't there before, trying to get to habitats and resources it needs and knows. **DO NOT** take them home, you think you are doing the right thing, but **YOU ARE NOT!!** It's not only illegal to remove them from it's natural habitat, you are also signing its death warrant. ⚠️ **WARNING** ⚠️ All tortoise species in South Africa are a protected under South African law. WCIN urge the public to familiarise themselves with the law before picking up a tortoise and taking it home.

🚗 Removing them from the wild, transporting them in your vehicle, or keeping them without the required permits is illegal and constitutes a criminal offence. Individuals found in possession of tortoises may face severe fines or imprisonment - "Ignorance of the law is not a defence". 🐢 Tortoises may seem like a hassle-free, cute pet, but they are not, it is a lifetime commitment.

🐢 When you removed a wild tortoise from its natural habitat and keep it in captivity it will suffer from stress, which causes natural, normally dormant, disease agents such as viruses. 🐢 Tortoises require special care and environments that are difficult to replicate in captivity, leading to poor health and shorter lives. 🐢 Even if you provide a tortoise the basic care it needs, it is still not enough. 🐢 Also, runny nose syndrome spreads like wildfire that will infect local population, and before long, nature conservators are confronted with serious losses in the local tortoise population. 🐢 Even if they survive all of the above, you run the risk of genetically contaminating resident populations. 🐢 We have a great responsibility as South Africans to protect our indigenous wildlife from abuse and to ensure they are sustained and kept for future generations and the sustainability of the species.

## "Protect wildlife - Respect the law - Leave tortoises wild and free"

Every illegally kept tortoise is a victim of cruelty and exploitation, a silent witness to the same crime: a freedom stolen and illegally taken from the wild. If you see or suspect that someone has collected, is transporting, selling or keeping tortoises illegally, **PLEASE REPORT IT** 📞 Report **Wildlife Crime** via our **HOTLINE**: Whatsapp or call: 079 643 9556 or email [report@wcin.org.za](mailto:report@wcin.org.za) (all information provided will be treated as confidential).

## IMPORTANT NOTICE: PLETT SHARK SPOTTERS OPERATIONS SUSPENDED

Shark Spotters advises that its Plettenberg Bay shark spotting operations have been suspended with effect from 1 July 2026 and will remain suspended until further notice. Despite extensive efforts over recent months, a new Memorandum of Agreement with Bitou Municipality has not yet been finalised. As our previous agreement expired on 30 June 2026, Shark Spotters no longer has either the mandate or the funding required to continue operating the programme. This was not a decision we wanted to make, but one we have no choice but to take until a new agreement is concluded. This means there will be no Shark Spotters on duty at Plettenberg Bay beaches until further notice. The suspension comes at a time when shark activity remains a real risk, particularly following the recent white shark predation event witnessed off Central Beach. We therefore urge all ocean users to remain vigilant, heed any advice from lifeguards and local authorities, and exercise caution when entering the water. Shark Spotters remains committed to restoring the service as soon as the necessary agreements are in place and will continue working with Bitou Municipality towards a resolution. We would like to sincerely thank the Plettenberg Bay community, our partners, volunteers, supporters, and our dedicated Shark Spotters for their continued support over the years. We will provide further updates as soon as more information becomes available.
