A word fitly spoken is like APPLES OF GOLD in a setting of silver - Proverbs 25v11

Over the past weeks we have considered what is known as the Parable of the Sower and the four types of soils (human hearts) on which the seed (God's Word) fell. Today we conclude with the soil that brought a great harvest: Luke 8v8 "Still other seed fell on good soil. It came up and yielded a crop, a hundred times more than was sown".

This is the type of harvest that every sower dreams about after the disappointment of no harvest from the other seeds that fell on the hard ground, amongst stones and choked by thorns. Jesus explained the parable in verse 15: "But the seed on good soil stands for those with a noble and good heart, who hear the word, retain it, and by persevering produce a crop". What was special about this seed? Nothing - it was the same seed namely God's Word that also fell on the unproductive soils - the difference is that this good soil was ploughed and ready to do what it was made to accomplish which is to be the medium in which the seed germinates, grows and produces a crop.

The fertile soil doesn't do anything other than house the seed and watch it grow. Noble and good hearts are receptive to the Word of God and retain it and are amazed as to how it brings forth a crop with no contribution of theirs to the process.

However, the size of the crop is dependent on how much the soil retains moisture - is it sand which drains quickly, or rich loam which retains water? This is a picture of the Holy Spirit whom we must let water our souls so God's Word can become a crop of note. Sadly, we all quench the Spirit to a greater or lesser extent so the crop is less than it should be. Even worse is if we grieve the Holy Spirit by deliberately living unholy lives - as David said: "I have hidden your word in my heart that I might not sin against you". (Psalm 119v11). What is the crop or fruit that the sower (God) expects?

"The fruit of the Spirit is love, joy, peace, forbearance, kindness, goodness,

faithfulness, gentleness and self-control." (Galatians 5v22) Friends we, the soil, cannot develop this fruit on our own - we need to be soaked in God's Word and allow His Spirit to have freedom to work in our lives. Our contribution is to be good and fertile soil which is an obedient and persevering heart. The early Christians turned the world upside down and so can we if we are the good soil which produces a hundred-fold crop of love, joy, peace, kindness, gentleness and self-control. Amen, Graeme Greenwood

Strandloper Project

Marine Wildlife Strandings in the Garden Route.

If, while enjoying your time on the beach and shoreline, you encounter a stranded species of marine wildlife, please contact your local Marine Stranding organization.

WHAT TO DO IF YOU FIND A TURTLE.

- 1) Do not return it to the ocean. It has stranded as it is either weak, ill, tired or has ingested plastic.
- 2) Do not place it in a container of water. Turtles are air breathing and can drown if weak and tired.
- 3) Keep it in a dry, ventilated and room temperature box, preferably placing the turtle on a towel.
- 4) Contact the turtle rescue number or the local marine stranding organization.
- 5) Get a location pin

WHAT TO DO IF YOU FIND A LIVE SEAL.

1) Do not try and chase it into the water - it is either tired, undernourished or weak and wants to rest.

2) Create a safe zone around it and prevent dogs and crowds from approaching it.

3) Call your local marine stranding organization.

4) Take a location pin to share with the rescuers.

WHAT TO DO IF YOU FIND A PENGUIN

1) Do not try and chase it into the water - it is either tired, undernourished or weak and wants to rest.

2) Create a safe zone around it and prevent dogs and crowds from approaching it.

3) Call your local marine stranding organization.

4) Take a location pin to share with the rescuers.

5) After you have spoken to a marine animal rescuer, and they request you to collect the Penguin, follow their instructions

on how to handle it and where to take it. Please be aware that they have extremely sharp beaks and need to be handled with care and cautiously.

WHAT TO DO IF YOU FIND A DOLPHIN

1) Check for any obvious injuries.

2) Report to the local marine stranding organization and provide a detailed report of condition and location.

3) Unless advised by the stranding organization, do not attempt to return the dolphin to the ocean. Keep it cool by placing wet towels over it and wetting the towels about every 10 minutes.

4) Reduce any stress from dogs and crowds.
