Strengths Workshop Plett 2023 Kids ages 10 - 18 years

For too long parents, teachers and society have focused on identifying and fixing "kids" weaknesses to improve academic performance.

What if every child can find success in school, their relationships and life if we start focusing on the strengths they have, rather than on what they lack. Every child is beautiful, talented, and gorgeous. Its just where?

Research shows that only 2 out of 10 people get to play to their strengths. Life is too short to be one of the 8 that get stuck doing what they can just to make it through another day. Be bold and take the step.

Discovering your strengths is a rewarding process if you know what to look for. Every action respectful or defiant, in and out of the classroom, provides an opportunity to discover a person's unique set of strengths. The boy who is scolded for speaking out in class, may have untapped potential for debate. The girl who is more engaged on the tennis court than the classroom may have a hidden knack for physics. A child drawn to one activity or household chore over another is driven by natural inclinations that can be identified and applied to schoolwork.

Dr Ross will show you how to make such connections in everyday life, and in turn help kids implement the strengths they reveal in school, their relationships, life, and future career.

Parents don't we all want our children to be seen and valued for who they are and the unique gifts they bring to this world?

Cost R 900 per student – cost includes psychometric strength assessment, workshop, and parent group feedback. Strength assessment done online prior to workshop.

Date TO BE CONFIRMED...
